EDUCATION

Brandeis School of Business and Economics

Waltham, MA

Candidate for Master of Science in Finance (STEM-Designated)

01/2026 - 12/2026

Relevant Coursework: M&A Analysis, Credit Risk, Computer Simulations and Risk Assessment

Additional Focus: Valuation, Financial Statement Analysis, Portfolio Optimization, Risk Modeling

Bentley University

Waltham, MA

Bachelor of Science in Corporate Finance and Accounting, Minor in Computer Information Systems

09/2021 - 05/2025

WORK EXPERIENCE

RSM Tbilisi, Georgia (Country)

Financial Audit Associate

05/2024 - 08/2024

- Managed AR, inventory (weighted-average costing), write-offs, SG&A, and cash testing in CaseWare during two-month audit of a large agricultural retailer, proposing adjustments and confirming compliance with IFRS
- Executed end-to-end audit of \$250K alcohol-producer subsidiary, analyzing sales, COGS, cash, inventory, and fixed assets
- Prepared review-ready workpapers in CaseWare, managed multi-area account testing, resolved client and manager queries, and ensured audit quality and timely completion
- Assisted outsourced accounting engagement for China-based construction company, assisting with transaction recording, account reconciliations, and monthly close support under IFRS-aligned reporting

Bank of Georgia

Tbilisi, Georgia (Country)

Corporate Banking Intern

07/2023 - 08/2023

- Developed credit analysis models from raw financials, performing ratio, and sensitivity analyses that enabled approval of \$2M+ corporate facilities and surfaced risks driving rejection of \$3M loan request
- Evaluated borrower liquidity, leverage, and cash flow trends across corporate and project finance clients, directly informing credit decisions, including long-term financing approval for a renewable hydroelectric project
- Examined regulatory and market conditions in Georgia's microfinance industry and agricultural export sector (blueberries), assessing regulatory impacts, demand trends, and sector risks; summarized insights for corporate banking department

ACADEMIC PROJECT

Bentley University

Waltham, MA

Quantitative Portfolio Management

01/2025 - 05/2025

- Implemented and tested multi-factor equity model on S&P 1500 in FactSet, estimating factor premia, evaluating alpha through regression analysis, and benchmarking performance; performed Brinson attribution analysis across GICS sectors to identify performance drivers and strengthen portfolio risk assessment

Financial Markets and Investments

01/2025 - 05/2025

- Conducted buy-side valuation of Goodyear Tire (GT) using DCF and comparable companies
- Constructed optimal risky portfolio with equities and U.S. Treasuries using Modern Portfolio Theory

Financial Modeling

09/2024 - 12/2024

- Assessed Raytheon Technologies' revenue growth, expense ratios, and tax rates and developed DCF model
- Constructed and optimized a 4-7 asset equity portfolio by modeling return distributions, correlation and covariance matrices, and risk metrics to improve diversification and risk-adjusted performance
